REVENUE MEMORANDUM ORDER NO. 27-2020

SUBJECT : BIR Digital Transformation Roadmap 2020-2030

TO : All Internal Revenue Officials, Employees, and Others Concerned

I. BACKGROUND

The present administration's mandate is to make real and meaningful change for the people. To realize this mandate, the government formulated the 10-Point Socio-Economic Agenda which outlines the priorities of the government to accelerate and sustain economic development and fulfill its promise to achieve "AmBisyon Natin 2040" that envisions a Matatag, Maginhawa, at Panatag na Buhay for all.

The Bureau of Internal Revenue (BIR), as the primary revenue generating agency, plays an important role in ensuring sufficient funding to meet the country's development goals and achieve our long-term vision and aspiration. The BIR is tasked to consistently achieve increasing revenue targets to meet equally increasing demands. Hence, BIR needs to improve further its existing capabilities, policies, processes, and systems through digital transformation. The BIR Digital Transformation is in response to the Secretary of Finance's call for the BIR to sustain its efforts towards completely modernizing tax administration that is consistent with the objectives of the comprehensive tax reform program, particularly to make tax compliance easier which is aligned with Republic Act (RA) No. 11032, "An Act of Promoting Ease of Doing Business and Efficient Delivery of Government Services".

In recognition of BIR's need to adapt to and take advantage of the fast evolving digital economy and further improve efficiency in revenue collection, the BIR initiated activities in 2019 to prepare for its digital transformation journey and come up with a common understanding of what the BIR envisions for 2030. Thus, a series of briefing/trainings and consultation workshops were conducted to develop the BIR Digital Transformation (DX) Roadmap.

In particular, the BIR Digital Transformation Roadmap articulates how the "reengineering" referred to in the BIR Strategy 2019-2023 can be effectively implemented. The DX Roadmap incorporates the tools necessary to maximize existing resources at the BIR and ensure maximized value out of the organization. The DX roadmap is anchored on three principles, namely: **(i) adopting a people first approach, (ii) instituting a process perspective, and (iii) embracing digital technology**, with the digital transformation mindset as its foundation.

II. OBJECTIVES

This Order is issued to prescribe the **BIR Digital Transformation (DX) Roadmap 2020-2030** which enumerates the programs, outcomes and corresponding timelines that will help the BIR in carrying out its mission to improve revenue collections to fund the national government programs and initiatives under the 10-Point Socio-Economic Agenda.

III. POLICIES AND GUIDELINES

1. The BIR Digital Transformation (DX) Roadmap for CY2020-2030 (Annex "A") shall contain the BIR DX Vision 2030, the DX Strategy Theme with Outcomes and the Project Timeline to be implemented per DX Phase, to wit:
 - a. **Phase 1 (2020-2023):** Build the DX Foundation - Engage and build the DX culture within the BIR in streamlining current taxpayer services;
 - b. **Phase 2 (2024-2030):** Strengthen DX in BIR - Leverage on data and digital technology within BIR for better taxpayer services.
2. The implementation of the two (2) BIR DX Roadmap Phases shall comprise of four (4) major DX Themes with corresponding outcomes, as follows:
